## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 13(in part), drawn to a method of treatment of animals suffering from retroviral infections, wherein the infection is HIV.
  - II. Claim 13(in part), drawn to a method of treatment of animals suffering from retroviral infections, wherein the infection is SIV.
  - III. Claim 13(in part), drawn to a method of treatment of animals suffering from retroviral infections, wherein the infection is FIV.
  - IV. Claim 13(in part), drawn to a method of treatment of animals suffering from retroviral infections, wherein the infection is BIV.
  - V. Claim 13(in part), drawn to a method of treatment of animals suffering from retroviral infections, wherein the infection is EAIV.

The inventions of Groups I-V are classified in class 424, subclass 520.

The inventions are distinct, each from the other because of the following reasons: each is directed to a different treating population than the other. The invention of Group I is directed to treat a population that is infected with HIV, i.e. humans. The invention of Group II is directed to treat a population that is infected with SIV, i.e. simian. The invention of Group II is directed to treat a population that is infected with FIV, i.e. feline. The invention of Group II is directed to treat a population that is infected with BIV, i.e. bovine. The invention of Group II is directed to treat a population that is infected with EAIV, i.e. equine.

Art Unit: 1648

2. Because these inventions are distinct for the reasons given above and the search required for Group I, a population that is infected with HIV is not required for Groups II-V, a population that is infected with SIV, FIV, BIV, and EAIIVV; restriction for examination purposes as indicated is proper.

3. Claims 1-12 and 14-15 link(s) inventions of Groups I-V. The restriction requirement among the linked inventions is subject to the nonallowance of the linking claim(s), claims 1-12 and 14-15. Upon the allowance of the linking claim(s), the restriction requirement as to the linked inventions shall be withdrawn and any claim(s) depending from or otherwise including all the limitations of the allowable linking claim(s) will be entitled to examination in the instant application. Applicant(s) are advised that if any such claim(s) depending from or including all the limitations of the allowable linking claim(s) is/are presented in a continuation or divisional application, the claims of the continuation or divisional application may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
